MILTON BRADLEY COMPANY

MBX EXPANSION SYSTEM FOR THE TEXAS INSTRUMENTS HOME COMPUTERS!!!

MBX SYSTEM $99.95
(Includes five (5) FREE cartridges!! Your Choice)

MX0101 Space Bandits
MX0102 I'm Hiding
MX0103 Sewermania
MX0104 Terry Turtle's Adventure
MX0105 Bigfoot
MX0106 Meteor Belt
MX0107 Championship Baseball

Now you can enhance your Computer with these exciting features:

VOICE RECOGNITION
SPEECH SYSTHESIS
ACTION-INPUT KEYPAD
ANALOG JOYSTICK

BIGFOOT™ Dodge boulders and eagles to climb the mountain and capture Bigfoot. Six mountains — each more challenging than the previous.

METEOR BELT™ Your computer copilot warns you of enemy ships in this daring space duel. Fast action. Destroy meteors and rival space ships.

SPACE BANDITS™ Snatch up space crystals in a 3-D maze while chased by deadly droids!

SEWERMANIA™ Defuse a time bomb in a sewer filled with killer rats and alligators!

TERRY TURTLE'S ADVENTURE™ Children guide Terry through a changing landscape. They can *tell* Terry how to get home and watch him obey and talk back. Teaches elementary programming and learning concepts. Ten basic commands keep things simple.

I'M HIDING™ It's hide and seek fun with bugs hiding in a large box of crayons. Bugs actually call out clues and tell kids if they are "hot" or "cold". Your child uses the voice recognition feature to conduct the search and learns all about shape, color, and size relationships.

THE MOST REALISTIC SPORTS GAME EVER DEVISED — CHAMPIONSHIP BASEBALL™

Your voice directs the players in the field, the keypad controls the pitch, and the joystick controls the batter and the runners. The ball is hit — Crrack! You call, "shortstop!", and the shortstop immediately moves over and fields the ball. "First base!", you command, and the shortstop rifles the ball to the first baseman. "Out!" cries the Ump. It's almost like being out there on the field itself. Incredible!

****

DISK FIXER 39.95

Unlocks the secrets of the disk and lets you access hidden or "lost" information. Disk Fixer is a must for the serious TI 99/4A user who has a "sick disk" which suffers from a damaged directory. This program lets you recover unscathed information by searching your disk by sector rather than file name. Disk Fixer lets you display/print the actual binary contents with a single command. It allows you to change any byte on any sector, even move data from one sector to another.

SUPER-DUPER 39.95

Safeguards masters fast. Use the high-speed Super-Duper program cartridge to duplicate your disks, single and double sided, then lock away your originals. For single drive-systems, a special data-compression routine stores most of your information in expanded memory to reduce disk swapping. Most disks are copied in one or two passes—and Super-Duper works even faster with multiple-drive systems. The program automatically formats blank diskettes before copying and allows you to verify your back-ups byte for byte against the originals.

CONSOLE WRITER 49.95 NEW

Turns your console into a word processor without disk-drive memory. With just your console, a printer and this unique cartridge program you can begin word processing today. Features include a full screen text editor that lets you Insert and Delete characters and complete lines. The program is extremely easy to use yet powerful enough to handle most home word processing applications.

HOMEWORK HELPER 49.95 NEW

Makes homework fun, develops basic computer skills. This new educational program for children 8 years and older, features a built-in 20,000 word checker dictionary to identify spelling errors. Homework Helper is a simple-to-use tool for improving study habits, written work quality, and planning class assignments. Homework Helper contains a word processor which includes standard format for book reports and class projects. DISK DRIVE REQUIRED.

All programs on disk and Require 32K and Extended Basic.

TYPWRITER
A 16K Word Processor for Cassette or Disk
(does not require 32K mem. exp.)

INCLUDES: Right Justify, complete text editing (arrow keys move cursor to screen location of text), printer formatting shown in on-screen text, auto-centering, tab, etc.
ANY PRINTER: T.I., Epson, Gemini, Prowriter, Okidata, MPI, Smith-Corona, Royal, Brothers, Seikosha, Alphacom, Radio Shack, IDS, GE, NEC, Diablo, Gorilla, Abati, etc.
ANY I/O PORT INTERFACE: T.I. RS232 card, Doryt, Axiom, Intelitec, Ultra-Comp, etc. Parallel or Serial data. (PIO, RS232, etc.)
SPECIAL PRINTER CONTROLS: CPI changes, Bold, Condensed, lines/inch, proportional, reverse line feeds, form feeds, etc. (depends on printer capabilities)
HOLDS 3000 CHARACTERS: PRINTS MULTIPLE PAGES WITH CONTINUOUS INPUT/PRINT
CASSETTE: $32.00 DISKETTE: $35.00

NAME-IT
16K Mail List/Data Base for Cassette or Disk
Control & Print: labels, lists, files.

DISK: 250 records, 9 fields of 28 chrs. per record.
CASSETTE: 2500 chrs., 9 fields of 28 chrs.
FAST SORT: 250 records in 100 seconds!
INCLUDES: Search, Selective print, 7 Print formats for labels & lists (user modifiable), Pre-set, etc.
MAIL MERGE FILES USING TYPWRITER (cassette or disk) or **TI-WRITER** module.
CASSETTE: $32.00 DISK: $35.00

MASTER DISK FILE
A PERPETUAL DISK FILE

Insert disk into drive; it is catalogued and filed.
Up to 120 disks or 1100 programs per file.
Does not require memory expansion.
Use single or double sided disks (or mixed).
Single or multiple drives.
List on screen or printer in alphabetical order by program name or disk name.
SEARCH by disk or program name. Look-up time from a cold start in less than one minute; from a running start in 15-25 seconds.
Automatically up-dates old information.
Any printer; parallel or serial.
DISK ONLY — $15.00

SCREEN/DUMP
Print the screen to an 8-dot addressable, 8 bit printer. Does not require memory expansion! Disk version is easy to use. Cassette version requires mild programming knowledge.
CASSETTE or DISK — $12.00

BEST SELLER

Data Base 99
At last! A fast, flexible, friendly, full featured data base! Create your own Mail List, bowling scores, list of collectibles, etc. Define your own input format of up to 28 fields of up to 28 characters each (maximum 245 chars. per record). 700 records on double sided disk, 350 on single sided. Multiple key sort. Select subfiles, based on any criteria. Define your own output format: print any field, in any column, on any line.

QUICK-COPYer II
Backup your disks, including Proprietary disks, in 3 passes or less! (2 passes or less with Mini Memory!) Full or selective backup. Initialize the copy disk in any format (including double density)! Transfer single sided disk to double sided disk and/or single density to double density, or vice versa. Reorganizes the copy disk for faster access, and less wear and tear on your drive! Automatically checks every byte written on the disk, so you know your copies are good! Save time, save work!

DISK LABELER
Shows you instantly which programs are on a disk. Produces a disk catalog, in condensed print, on a mailing label (or printer paper) which may be attached to the disk or disk envelope. Shows how filenames are spelled and space remaining on the disk.

DISK MANAGER III
A resident disk manager program! No more swapping modules! Save time! Save wear and tear on your console! Contains all the most frequently used functions of the Disk Manager module. Always in memory, ready for instant use, at any time! Get a disk catalog on the screen or printer, initialize a disk in any format (including double density)! change a diskname, change a filename, delete a filename, change file protection. All from command mode, without disturbing your program in memory, and without using the Disk Manager module! Each function can also be used in your Ex. BASIC program!
Req: 32K, Ex. BASIC .....only $39.95!
"Great-I use it ten times a day!"-D.J. Ohio
*(with double-density controller)

Be an Artist!

Draw 'N Plot
Create and print drawings, graphs, designs, and illustrations. Draw any image on the screen with pixel accuracy and Assembly Language speed! The only limitation is your imagination! Simple enough for children - powerful enough for experts! Uses bit-map mode. Save the image to disk. Mix text and graphics, set background color and line color, draw circles, FILL, ERASE. Print image on an Epson or Gemini 10X*compatible printer. Menu driven. Also, plot your data and equations, quickly and easily, on the screen or printer, with 8 plotting commands.

HENHOUSE™

Help Farmer Jones collect the eggs from his henhouse. But be careful! Score points with each basket of eggs you safely deliver to his truck. But watch out for wolves and poachers! And don't drop any eggs!

◆

VIDEO VEGAS

Test your luck at the most realistic slot machine outside of Las Vegas! Authentic, exciting sound effects dramatize the action and help to create an atmosphere of winning — or losing!

RABBIT TRAIL™

Hop along the rabbit trail and crawl through rabbit holes to collect all the carrots. Watch out for weasels, hawks and traps, or hop onto a raft to escape your enemies. Seven different screens make this game an ultimate challenge!

◆

AMBULANCE™

Race your ambulance through the city to save ailing citizens. Avoid cars and approaching trains while making use of your emergency shelters. Score points for safe patient deliveries. Faster deliveries get more points!

INFOCOM

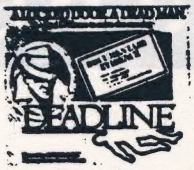
The ZORK® trilogy, Infocom's classic underground odyssey, takes you into the extraordinary environs of the Great Underground Empire. It's a world so vast and unique, it can offer new discoveries no matter how often you explore it, with challenges that change and revitalize the adventure each time you make your descent. The

ZORK I: The Great Underground Empire confronts you with perils and predicaments ranging from the mystical to the macabre, as you strive to discover the Twenty Treasures of ZORK and escape with them and your life.

ZORK II: The Wizard of Frobozz takes you to new depths of the subterranean realm. There you'll meet the Wizard, who will attempt to confound you with his capricious powers.

ZORK III: The Dungeon Master is the test of your wisdom and courage. Your odyssey culminates in an encounter with the Dungeon Master himself, and your destiny hangs in the balance.

PLANETFALL™ teleports you forward a hundred centuries to a Stellar Patrol ship of the Third Galactic Union, where your rank is Ensign 7th Class—about as low as you can go. But then your luck takes a turn for the better. Your ship explodes. Which really is fortunate, because you're thereupon jettisoned away to a mysterious, deserted world. True, the planet is plagued by floods, pestilence, and a mutant Wild Kingdom. But there's also Floyd, a mischievous multipurpose robot and the ideal companion with whom to brave your new world as you explore its secrets, dare its dangers, and attempt to discover a means of saving it.



DEADLINE™ pits you, the keen-eyed sleuth, against a 12-hour time limit to solve a classic locked-door mystery. Infocom literally puts the case in your hands, providing you with a dossier containing lab reports, police findings, dastardly-looking pills, and more. Once you embark on your investigation, you must sift through a myriad of clues and motives in order to track down the killer. No easy feat, for all six of your suspects exercise free will—coming and going, scheming and maneuvering independent of your actions.

The WITNESS,™ as a CBS MORNING NEWS feature recently revealed, brings the Great Detective Era of the Thirties to life with you as detective. It's a case of blackmail that turns into murder before your eyes, and anyone from the knockout heiress to the poker-faced Oriental butler could be the killer. As in DEADLINE, your suspects act with minds of their own, and you have just 12 hours to solve the crime.

INFIDEL,™ the first action classic from Infocom Tales of Adventure,™ finds you marooned by your followers in the heart of the deadly Egyptian Desert. A soldier of fortune by trade, you've come hither in search of a great lost pyramid and its untold riches. Now, alone, you must locate and gain entry to the tomb, decipher its hieroglyphs, and unravel its mysteries one by one.

In ENCHANTER,™ the first of a spellbinding series in the Zorkian tradition, you are a novice magician whom Fate has chosen to do single-handed combat with a dark and fierce power. But worldly weapons will avail you naught, for your foe is th Evil Warlock who holds sway over the land. To defeat him, you will have to match your skills as a necromancer against his, using spells you have learned from your masters in the Circle of Enchanters and others you will acquire as you proceed on your quest.

STARCROSS,™ Infocom's science fiction mindbender, launches you headlong into the year 2186 and the depths of space, where you are destined to rendezvous with a gargantuan starship from the outer fringes of the galaxy. PC WORLD describes STARCROSS as "a great game in which to lose yourself," and justly so. For the great spacecraft bears three uniquely intriguing commodities: an alien world, peopled with all manner of other-worldly beings; a remarkably complex, interlocking puzzle to unravel; and a challenge that was issued eons ago, from light-years away—one that only you can meet.

In SUSPENDED,™ you are buried alive in a cryogenic capsule deep inside an alien world. When an earthquake disrupts the systems of the Underground Complex you inhabit—systems that surface life depends on—you must stabilize conditions. However, you can only do so by commanding your six robots, each of whom perceives the world differently, to perform actions for you. If you save your world from utter destruction, you've just begun. SUSPENDED is designed to be replayed numerous times as you learn to optimize your strategies. You can also go on to two more levels of play, and there's even an option that lets you customize the game.

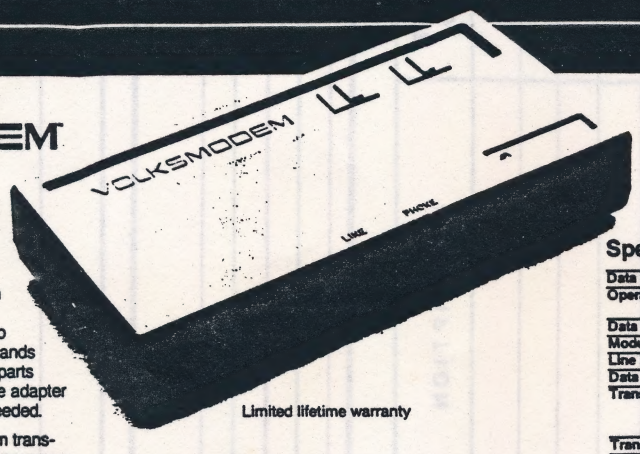
VOLKSMODEM

It puts computer-to-computer communications within easy reach of every personal computer owner.

Just plug Volksmodem™ between any wall phone jack and telephone and put your computer into instant communication with thousands of others. It's that easy. No extra parts or tools are necessary — just one adapter cable and software is all that's needed.

Completely portable, Volksmodem transmits both voice and data over all common telephone lines, automatically changes from Originate to Answer and back again when you're in the data mode, and uses a low-cost 9V battery or optional plug-in adapter. With Volksmodem's ability to access data sources as well as transmit data information, it's the truly affordable way to maximize your personal computer productivity.



Limited lifetime warranty

Volksmodem Features

- Direct connection for RS-232C type interface
- Bell 103 compatible
- Built-in interface cable and connector
- Internal 9V battery
- Audible carrier detect signal
- Full/half duplex switch
- 0-300 baud
- Data/voice switch
- Automatic originate/answer mode selection

Modem & Cable $69.00

Specifications

Data Format	Serial, binary asynchronous		
Operate Mode	Manual dial, Automatic ANSW/ORIG selection		
Data Rate	0 — 300 bps, full/half duplex		
Modulation	Frequency shift-keyed (FSK)		
Line Interface	Direct connect to wall outlet		
Data Interface	RS-232C compatible via selected cables		
Transmit Frequency		Orig	Answ
	Mark	1270 Hz	2225 Hz
	Space	1070 Hz	2025 Hz
Transmit Frequency	Accuracy		±0.01%
Transmit Level			-12 dBm typical
Receive Frequency		Orig	Answ
	Mark	2225 Hz	1270 Hz
	Space	2025 Hz	1070 Hz
Receive Frequency Tolerance			±0.5%
Carrier Detect Threshold			-44 dBm typical
Carrier Detect Indicator			Audible Tone
Power Requirement		Internal 9V transistor battery*	
Size		8¼" x 4⅜" x 1⅜"	

*Battery not included.

Near Letter Quality (NLQ) at a reasonable price!

The SG-10/15 printers are the first in their class to offer a high 120 CPS printing speed, NLQ (Near Letter Quality), and a 16Kb buffer for the SG-15 (SG-10: 2Kb). Whatever your personal computer, Star's SG-10/15 dot matrix printers provide reliable and flexible performance so your needs will be met today... and tomorrow. Innovative features include: b-directional logic seeking. Friction feed for single sheets, and tractor feed for fanfold paper. Easy access dip switches. A wide range of character modes and character sets. IBM character sets with a simple dip switch control. Easy interfacing with virtually all popular computers. Thirty-five years of micro-precision technological experience for quality and reliability second to none.
